WHAT IS ^{SO} **benefik**

SoBenefik is a high protein yogurt containing 8% protein and produced only with ultra-filtered milk powders.

This concept was designed by Epi Ingredients to showcase their new specialty ingredient, Epirot 60 UL.

Epirot 60 UL is a milk protein concentrate containing 50% total native protein. It is produced directly from fresh milk through a cold filtration process which allows for minimal denaturation and optimal functional & nutritional properties; thus giving So Benefik yogurt a very unique texture which can be replicated on an industrial scale. Enjoy!

EPIROT, your trusted protein source!

Native protein EPIROT 60 UL is the ideal solution for product developers seeking a highly functional quality protein source with outstanding nutritional properties. Not only does the ingredient offer superior gelling, emulsifying and water retention capabilities, but it also features the unique ability to provide enhanced creaminess and a rich mouthfeel in low-fat, high-protein applications. EPIROT 60 UL also presents a superior nutritional profile high in native calcium.

This new ingredient is easy to use and can be incorporated into a wide range of applications such as cheese, yogurt, quark, beverages, nutritional products and more!

Nutrition Facts (per 100g):

Protein	Calcium	Sodium	Lactose	Total Fat	Energy
8 g	0.267 g (267 mg) = 33% RDA	0.074 g (74 mg)	8.4 g	0.16 g	67 Kcal 285 kJ

Ingredients:

Water, skimmed milk powder, milk protein, whey protein, yogurt cultures (*L. bulgaricus* and *S. thermophilus*).
